“Roman Catholic theology” refers to the doctrinal development that has taken place in the Roman Catholic Church from the sixteenth century (commonly referred to as the Counter-Reformation) until today.

In this balanced volume, Gregg Allison—an evangelical theologian and church historian—helps readers understand the nuances of Roman Catholic teaching. Walking through the official Catechism of the Catholic Church, Allison summarizes and assesses Catholic doctrine from the perspective of both Scripture and evangelical theology. Noting prominent similarities without glossing over key differences, this book will equip Christians on both sides of the ecclesiastical divide to fruitfully engage in honest dialogue with one another.

Systematic theology seeks to understand and render more intelligible the central doctrines of faith and to show how they are related to each other. It tries to demonstrate how these doctrines are rooted in Scripture and develop in the history of the church; most important, it strives to more adequately express and sometimes reinterpret the church’s doctrinal tradition, always in the interest of better communicating the mystery of salvation and bringing it into a dialogue with culture. The present text is intended to be concise and accessible, an introduction that explores basic themes in Catholic systematic theology from a biblical, historical, and contemporary perspective, always aware of today’s theological pluralism.

Drawing upon the long history of care in the sacramental mission of the clergy, especially since the reforms of Vatican II, Father Duffy offers a new model that can stimulate both Catholic and Protestant pastoral care to fresh thinking and imaginative reconstruction. The model derives from the catechumenate, that lengthy process of study and service which, down through the ages, has preceded baptism and guided Christian formation. Reflecting a judicious use of interdisciplinary insights and praxis theology, Father Duffy's vision represents an ecumenical contribution to sharpened focus and strengthened identity for pastoral care and practice.

This updated second edition of the Catechism of the Catholic Church incorporates all the final modifications made in the complete, official Latin text, accompanied by line-by-line explanations of orthodox Catholicism, summaries of each section, a detailed index, extensive cross-references, and helpful footnotes.

Unique among contemporary resources, the landmark Systematic Theology and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments--especially the sea-change since Vatican II thought, the best new historical studies of traditional doctrines and scripture, and the diverse creative impulses that come from recent philosophy and hermeneutics, culture and praxis, and ecumenical contacts.

In *Are We Together? A Protestant Analyzes Roman Catholicism*, Dr. R.C. Sproul takes his stand for the cardinal doctrines of Protestantism in opposition to the errors of the Roman Catholic Church. Sproul, a passionate defender of the gospel of justification by grace alone through faith alone in Christ alone, cites the historic statements of the Protestant Reformers and the Roman Catholic authorities, then references modern doctrinal statements to show that the Roman Catholic Church has not altered its official positions. In light of this continuing gap, he writes, efforts by some in the evangelical camp to find common

Straightforward answers about Roman Catholicism for a Protestant audience The Roman Catholic faith is one of the world's most widespread religious traditions, yet the unique aspects of Roman Catholicism elicit perennial questions from adherents and outsiders alike. Such questions tend to fall into three major categories: historical backgrounds, theological matters, and personal relationships. Using Catholic Church documents and the writings of Catholic scholars, Baptist systematic theologian Gregg R. Allison distills the teachings of Catholicism around forty common questions about Catholic foundations, beliefs, and practices. The accessible question-and-answer format guides readers to the areas of interest, including: Where do Roman Catholic and Protestant beliefs differ? What happens during a Roman Catholic Mass? How does Roman Catholicism understand the biblical teaching about Mary? Who are the saints and what is their role? How can my Roman Catholic loved ones and I talk about the gospel? 40 Questions About Roman Catholicism explores theology and practice, doctrine and liturgy, sacraments and Mariology, contributions and scandals, and many other things, clarifying both real and perceived differences and similarities with other Christian traditions.

The author says: what I say here briefly will be found stated and elaborated at appropriate places in the course of the book. But anyone who considers reading a book has a right to know some things before he or she decides whether the book is worth looking into. I gather here such helpful information. First, a few words about the title of the book. Some may be shocked or repelled or both by the qualification Roman Catholic. So I shall try to provide a shock-absorber. I entitle the book as I do simply to be coherent with my conception of what theology is, and my intention to set forth some basics of the theological works which I myself project. As I understand it, theology is the effort to understand within a life of faith. As a work, it is the result of that effort. The matrix, the living setting in which alone a theology can develop, is religious experience of the theologian within his or her community of believers. Outside, or apart from, such a concrete setting, no one can reflect in any meaningful way on the structures of such experience, and of the experienced reality. I cannot, therefore, write a book of basics of theology in general, for I have no experience of what it is to be a Jew or a Moslem, for example, and I could say nothing which would have any claim to account for Jewish or Moslem theology

From apostolic times the Church has wrestled with the dilemma of how to defend its belief in the sanctity and permanence of marriage, while at the same time ministering the love and compassion of Christ to those traumatised by the experience of marital breakdown. Timothy Buckley is a Redemptorist priest who produced a report for the Catholic bishops of England and Wales on the pastoral situation among priests and people argues that the theology of the bond of marriage is responsible for an impasse which often limits the Church's official solutions to the granting of annulments. By tracing the history of the teaching on the bond, he concludes that the present discipline is based on disputable theology and he proposes a way forward. An enlightened, sound,
