However, she also provides hope and practical solutions on how to co-parent more successfully. How is an NT parent supposed to share the multi-dimensional work of parenting with a spouse who has no concept of the empathic glue that holds the parent/child relationship (and the parent/parent relationship) together? There are no shortcuts and no easy answers, but the question is explored in all its multi-faceted complexities. In the first part of the book, Dr. Marshack introduces? the reader to the daily life of AS/NT co-parenting. There is no analysis, just raw emotional experiences that will resonate with readers who are living this life. Next, readers will be compelled to shed some of their preconceived notions? as Dr. Marshack explains the science behind these troubling relationship as well as state of the art theories on Asperger Syndrome (ASD). At the end of the book Dr. Marshack provides specific techniques to help readers implement the changes they want and need to make to revive their marriage and their parenting as well as reclaim their personal freedom.
