Notable advances resulting from new research findings, measurement approaches, widespread uses of the Internet, and increasingly sophisticated approaches to sampling and polling, have stimulated a new generation of attitude scholars. This extensively revised edition captures this excitement, while remaining grounded in scholarly research. Attitudes and Opinions, 3/e maintains one of the main goals of the original edition--breadth of coverage. The book thoroughly reviews both implicit and explicit measures of attitudes, the structure and function of attitudes, the nature of public opinion and polling, attitude formation, communication of attitudes and opinions, and the relationship between attitudes and behaviors, as well as theories and research on attitude change. Over 2,000 references support the book's scientific integrity. The authors' second goal is to demonstrate the relevance of the topic to people's lives. Subsequently, the second part of the book examines many of the topics and research findings that are salient in the world today--political and international attitudes (including terrorism), voting behavior, racism and prejudice, sexism and gender roles, and environmental attitudes. This thoroughly revised new edition features: *an entirely new chapter on implicit measures attitudes; *a new chapter on environmental attitudes; *updated opinion poll data throughout the book; *additional material on time trends in attitudes about many issues; and *expanded, updated sections on international attitudes reflecting the events of 9/11 and the subsequent invasions of Afghanistan and Iraq. Attitudes and Opinions' broad and interdisciplinary perspective makes this an ideal text in courses on attitudes, public opinion, survey research, or persuasion, taught in a variety of departments including psychology, communication, marketing, sociology, and political science.

Notable advances resulting from new research findings, measurement approaches, widespread uses of the Internet, and increasingly sophisticated approaches to sampling and polling, have stimulated a new generation of attitude scholars. Widely adopted for its broad coverage, clear writing, empirical base, and interdisciplinary focus -- this book examines many of the ways in which social psychology has been and is being used to solve real-world problems. Introduces each of the major research methodologies used by social psychologists -- Survey Research, Experiments, Correlational Research, Quasi-Experimental Studies, and Evaluation Research -- and details its use in real-life studies. Explores, in detail, the eight most heavily researched areas of the field": Educational Settings, Diversity Issues, Organizational Settings, Environmental Issues, Health and Health Care, Mass Communication, Consumer Issues, and Legal Issues.

Unique in its emphasis on helping 'in the real world', this volume explores the group of behaviours variously labelled as helping, altruistic or prosocial - a classic and continually developing area of enquiry in social psychology. Contributors discuss helping behaviour as it naturally occurs in.

Justice and Power in the Sociolegal Studies asks what interdisciplinary work in the law and society tradition tells us about the relationship of law and justice, as well as the way power operates in and through law. The fundamental concepts of justice and power provide points of departure for leading scholars to explore the various domains of socio-legal research. As they note the explicitness of the engagement with issues of power and the relative silence about -- or indirectness in taking on -- questions of justice found in most law and society research, they ask how engagement with issues of power and silence about justice constituted law and society as a research field caught between a desire to have political impact and, at the same time, to maintain its scientific respectability.

During the past two decades, the study of how gender influences social life has moved from the outskirts to the centre of psychology. Some of psychology's most cherished assumptions have been challenged and feminist scholars proposed alternative views of human development, research methods, cognitive functioning, family life and communication. These challenges have invigorated many areas of psychology. Distinctive in its emphasis on applied issues that have practical importance in the lives of women and men, this volume presents current knowledge about key gender issues and sheds light on problems and controversies. Specific issues explored include: gender differences in emotion; desire for control; attitudes towards leader

This introductory Social Psychology book examines the basic theories within the field of social psychology and illustrates some of the many ways in which these theories have been used to understand and solve real-world problems. Focuses on a class of social psychological theories, and applies them to a current social issue. Grouped into sections on social cognition, social relations, and social influence, these issues include school failure, bilingual education, Head Start, stereotypes and prejudice, AIDS, teenage pregnancy, divorce, aggression and violence in schools, environmental issues, and welfare reform. For anyone interested in an introduction to social psychology.

Presenting outstanding, carefully selected research and analysis in the evolving field of policy studies, this series provides a selection of the finest policy writing available. Distinguished contributors explore decisionmaking and policy orientations in a wide variety of areas, including social welfare, education, policy implementation, civil liberties, economic regulation, foreign policy, federal funding, the environment, and public health care. Policy Studies Review Annual is a valuable reference for social scientists, legislators, policy makers, and professionals and students concerned with the policy decision process. Contributors (Volume VII--partial list): POLICY RESEARCH/POLICY PERSPECTIVES: I.L. Horowitz, J.J. Richardson, A.G. Jordan, H. Stein, R. Nathan; EMPLOYMENT AND TRAINING: R.B. Ripley, G.A. Franklin, J. Bovard, R.C. Rist, R. Taggart; HEALTH POLICY: L. Wyszewianski, J. Wheller, A. Donabedian, P.P. Bu-detti, J. Butler, P. McManus, D. Rosner, D. Gikhrist, S.P. Schinke, R.M. Hessler, A.C. Twaddle; SOCIAL SECURITY POLICY: N. Keyfitz, M.D. Levy, H. Mosley; URBAN POLICY: J.M. Goering, C.J. Orlebeke, P. Marcuse, P. Medoff, A. Pereira; EDUCATION POLICY: B.C. Rabe, P.E. Peterson, O.K. Cohen, S. Pogrow, H.M. Levin; ENERGY POLICY: G.A. Daneke, J.D. Roessner, M.D. Reagan; INDUSTRIAL POLICY: D. McKay, A. Etzioni, J. Hills.
