Twilight Zone is a collection of nine short stories, all written by the same author, Ranganathan Magadi. The stories relate to murder, love, homosexuality, AIDS, gang war, terrorism, patriotism, filial affection, marital fraud and medical negligence. The themes are very new and the mode of presentation is different.

Whatever has been written about Dr. Syama Prasad Mookerjee so far doesn't do justice to his grand and

multi-faceted personality. This leading sentiment is behind the motivation of writing the present book. A lot has been written on Dr. Mookerjee's political endeavours. However, his persona is immeasurably significant beyond his political life. The simplest explanation of his life proclaims him master of social, educational and economic thought. This book is an attempt to know how Dr. Mookerjee became a powerful personality, an educationist, a thinker, and an administrator. The focal point is to explore the new experiments and innovations brought out into the world of education by him. He always saw the role of education as of utmost importance in the process of national regeneration. Throughout his life, he spoke in favour of education, teachers and students. He was an educationist par excellence. It was under his tenure that Gurudev Rabindranath Tagore delivered the convocation address in Bengali, which was not less than a revolution in British India. This book will help the readers see the profound blending of tolerance, humanity, and tradition, together with the scientific outlook in the personality of Dr. Syama Prasad Mookerjee.

This book studies the correlation between technological knowledge and industrial performance, with the focus on electricity, an emerging technology during 1880 and 1945.

**Salient Features:** Provided simple step by step explanations to motivate self study of the subject. Free hand sketching techniques are provided. Worksheets for free hand practice are provided. A new chapter on Computer Aided Design and Drawing (CADD) is added.
