specialists into the remarkable universe of fungi. Combining ecological, ethnographic, historical, and contemporary knowledge, author and mycologist Lawrence Millman discusses how mushrooms are much more closely related to humans than to plants, how they engage in sex, how insects farm them, and how certain species happily dine on leftover radiation, cockroach antennae, and dung. He explores the lives of individuals like African American scientist George Washington Carver, who specialized in crop diseases caused by fungi; Beatrix Potter, creator of Peter Rabbit, who was prevented from becoming a professional mycologist because she was a woman; and Gordon Wasson, a J. robbery rocked Kennedy Airport, resulting in the largest unrecovered cash haul in world history, totaling six million dollars. The perpetrators were never apprehended and thirteen people connected to the crime were murdered in homicides that, like the crime itself, remain unsolved to this day. The burglary has fascinated the public for years, dominating headlines around the globe due to the story's unending ravel of mysteries that baffled the authorities. One of the organizers of the sensational burglary, Henry Hill, who passed away in 2012, in collaboration with Daniel Simone, has penned an unprecedented "tell-all" about the robbery with never-before-unveiled details, particulars only known to an insider. In 2013, this infamous criminal act again flared up in the national news when five reputed gangsters were charged in connection to the robbery. This latest twist lends the

project an extraordinary sense of timing, and the legal proceedings of the newly arrested suspects will unfold over the next year, continuing to keep the Lufthansa topic in the news.
