This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Miller's Economics Today remains committed to providing readers with discussion and coverage of the most current issues and events. Given the immense changes in our economy, this sixteenth edition of Economics Today addresses what has occurred and discusses the importance of today's major economic issues.

Schiller/Sabiston/Phipps, The Micro Economy Today, Canadian Edition, is more concise and somewhat less analytical and mathematical than other first year texts. In some respects, it is better suited to the modern undergraduate. It does a better job of explaining some of the key issues without the cost of lengthy exposition. One of the main strengths of The Micro Economy Today is the way it connects theory and "real world" issues. The application to theory makes it easy for students to understand, especially at the college level. Students should be more inclined to read this text.

This book is carefully designed and correlated to the thirteen telecourse video programs to enrich your understanding of economic principles.

'The Macro Economy Today' is noted for three great strengths: readability, policy orientation, and pedagogy. Schiller's accessible writing style engages students and brings some of the excitement of domestic and global economic news into the classroom.

The Microeconomy Today is noted for three great strengths: readability, policy orientation, and effective pedagogy. The accessible writing style engages students and brings the excitement of domestic and global economic news into the classroom. Schiller emphasizes how policymakers must choose between government intervention and market reliance to resolve the core issues of what, how, and for whom to produce. These strategic trade-offs are highlighted throughout the full range of micro and international issues, and every chapter ends with a policy issue that emphasizes the markets vs. government dilemma. The authors teach economics in a relevant context, filling chapters with the real facts and applications of economic life. The Microeconomy Today, 15th edition, is thoroughly integrated with adaptive digital tools and dynamic interactive resources available in Connect—proven to increase student engagement and success.

Continuing the four goals from the first edition, i.e. helping students to make good financial decisions, providing a solid text for the introductory MBA course, motivating students by demonstrating finance is relevant and interesting, and presenting the material clearly, this Tenth Edition promises to be the best yet. Written by a highly-acclaimed, best selling, author team, this text remains the only MBA-level text to present a balance of financial theory and applications.

Economics: Private and Public Choice is an aid for students and general readers to develop a sound economic reasoning. The book discusses several ways to economic thinking including six guideposts as follows: (i) scarce goods have costs; (ii) Decision-makers economize in their choices; (iii) Incentives are important; (iv) Decision-makers are dependent on information scarcity; (v) Economic actions can have secondary effects; and (vi) Economic thinking is scientific. The book explains the Keynesian view of money, employment, and inflation, as well as the monetarist view on the proper macropolicy, business cycle, and inflation. The book also discusses consumer decision making, the elasticity of demand, and how income influences demand. The text analyzes costs and producer decisions, the firm under pure competition, and how a competitive model functions. The book explains monopoly, and also considers the high barriers that prevent entry such as legal barriers, economies of scale, and control over important resources. The author also presents comparative economic systems such as capitalism and socialism. This book can prove useful for students and professors in economics, as well as general readers whose works are related to public service and planning in the area of economic development.
