Simple download of Hadoop agentless, on-demand plugin. No new licensing SKU required. Easy configure and install on all backup hosts needed. Reduce risk with recovery of point-in-time historical data. Ensure regulatory compliance for data analytics retention and archival. Download your free Hadoop plug-in.

Hadoop Backup & Data Protection | Veritas

A proper, well thought out Hadoop backup and recovery strategy is needed to ensure that data can be recovered reliably and quickly, and that backup operations do not take up too much engineering or DevOps resources. A modern Hadoop backup and recovery solution must: Completely eliminate the need for scripting; Be fully automated - not need dedicated resources

4 Reasons Your Existing Hadoop Backup & Recovery Strategy ...

The rapid adoption of Hadoop within the enterprise has resulted in the deployment of a number of haphazard, quick-fix Hadoop backup and recovery mechanisms. Usually, these primitive solutions come bundled with the Hadoop distributions themselves but are also cobbled together by DevOps teams within organizations.

4 Reasons Your Existing Hadoop Backup & Recovery Strategy ...

HDFS snapshots can be combined with DistCp to create the basis for an online backup solution. Because a snapshot is a read-only, point-in-time copy of the data, it can be used to back up files while HDFS is still actively serving application clients.
