between Freddie Mercury and Jim Hutton evolved over several months in 1984 and 1985. Even when they first slept together Hutton had no idea who Mercury was, and when the star told him his name it meant nothing to him. Hutton worked as a barber at the Savoy Hotel and retained his job and suburban lodgings long after first meeting the rock legend. Hutton finally moved in with Mercury and later also worked as his gardener. Hutton was never fully assimilated into Mercury's jet-setting lifestyle, nor did he want to be, but from 1985 until Mercury's death in 1991 he was closer to him than anyone. He knew all Mercury's closest chums including the other members of Queen, Elton John, David Bowie and Montserrat Caballé. Ever present at the countless Sunday lunch gatherings and opulent parties, in stark contrast Hutton also nursed Mercury through his terminal illness, often held him through the

For the first time, the final years of one of the world's most captivating rock showman are laid bare. Including interviews from Freddie Mercury's closest friends in the last years of his life, along with personal photographs, *Somebody to Love* is an authoritative biography of the great man. Here are previously unknown and startling facts about the singer and his life, moving detail on his lifelong search for love and personal fulfilment, and of course his tragic contraction of a then killer disease in the mid-1980s. Woven throughout Freddie's life is the shocking story of how the HIV virus came to hold the world in its grip, was cruelly labelled 'The Gay Plague' and the unwitting few who indirectly infected thousands of men, women and children - Freddie Mercury himself being one of the most famous. The death of this vibrant and spectacularly

Read Free Mercury And Me

talented rock star, shook the world of medicine as well as the world of music. Somebody to Love finally puts the record straight and pays detailed tribute to the man himself.

A portrait of the iconic rock band's late lead singer draws on insider access to trace his rise to fame, struggles with risky behavior, relationships with loved ones and death from AIDS complications. 60,000 first printing.

An intimate memoir of the flamboyant Queen singer by the man who knew him best. Peter Freestone was Freddie Mercury's Personal Assistant for the last 12 years of his life. He lived with Mercury in London, Munich and New York, and he was with him when he died. In this book, the most intimate account of Mercury's

Read Free Mercury And Me

life ever written, he reveals the truth behind the scandalous rumours, the outrageous lifestyle and Mercury's relationships with men, women and the other members of Queen. From the famous names – including Elton John, Kenny Everett, Elizabeth Taylor and Rod Stewart – to the shadowy army of lovers, fixers and hangers-on, Peter Freestone saw them all play their part in the tragi-comedy that was Freddie Mercury's life. Freestone lived with Mercury in Europe and America for over a decade. From the East 50s apartment in New York to Kensington Lodge, the house in London where Mercury died – not to mention innumerable international hotel rooms and apartments in between – Freestone was always on hand to serve and protect the man he had first met in the Biba department store in the early 1970s. Then Queen was a largely unknown band. Soon it would be the most glitzy of glam rock

Read Free Mercury And Me

bands. Freestone saw the fame arrive and with it the generosity, the excess, and the celebrity friends who came and went. "I was chief cook and bottle washer, waiter, butler, valet, secretary, amanuensis, cleaner, baby-sitter" and agony aunt," he writes. "I shopped for him both at supermarkets and art markets, I travelled the world with him, I was with him at the highs and came through the lows with him. I saw the creative juices flow and I also saw the frustration when life wasn't going well. I acted as his bodyguard when needed and in the end, of course, I was one of his nurses." Freestone's bestselling account of a talented and extravagant star's life and death is compelling, entertaining and ultimately, very touching. Illustrated with many photos from personal and Freestone's own archives.

Mercury's private life - the ecstasies and the agonies - more accurately or honestly than Jim Hutton.

On 24 November 1991 people all over the world mourned the untimely death of Freddie Mercury, lead singer of rock band Queen. But for the author, Mary Howis, her life would never be the same, as, from that day forward, she was aware of a strange presence around her; someone from the spirit world – the spirit that once was Freddie Mercury, known in the spirit world as “the Mercury Man”. Mary had been chosen for a special mission – to be an instrument for the spirit world, for Freddie, through which they could communicate. But why her? Why someone who, until the news reports of Freddie Mercury’s death, had never even heard of him? Mary tells the story of her spiritual journey of discovery from

Read Free Mercury And Me

disbelief, self-doubt and denial to an absolute conviction that what she was experiencing was real, the messages she was receiving were true, and they were proof that life continues after death; that Freddie was still alive, in spirit form, and had much knowledge to impart to the world. Despite the ridicule she might face, Mary knew that she was destined to write this book, to tell her story – Freddie's story – to the world, in the hope that it would bring comfort and hope to those who are suffering in their earthly bodies, who are grieving for loved ones, who are fearful of death. The message is clear: death is not the end, it is a new and exciting beginning.

Noted for his powerful vocal talent and charismatic stage presence, Freddie Mercury was a true legend of rock. In this book the late Queen frontman recalls some of the key moments which shaped his

Read Free Mercury And Me

life, revealing how he coped with the ups and downs of fame and celebrity.

Freddie Mercury was rock's most dazzling showman, a legendary entertainer who in 1991, at the age of just forty-five, became the first major music star to die of AIDS. Mercury's soaring four-octave voice was a defining element in Queen's unique sound, crucial to the success of the band's fifteen studio albums, from Queen (1973) to Made in Heaven (1995). He was also a supremely talented songwriter and musician who wrote many of the band's greatest hits, including "Killer Queen", "We Are the Champions" and their biggest triumph, the epic anthem "Bohemian Rhapsody". As a solo artist he released two acclaimed albums: Mr. Bad Guy in 1985 and the operatic 'Barcelona' with Spanish soprano Montserrat

Read Free Mercury And Me

Caballé in 1988. Mercury's extraordinary charisma was perhaps best seen in his imperious live performances, in which he'd hold vast stadium crowds to rapturous attention. His outrageous theatrics, physicality and over-the-top costumes led one commentator to describe him as "a performer out to tease, shock, and ultimately charm his audience with various extravagant versions of himself". He pushed the limits of camp in everything he did. His extreme behaviour, in a society in which being gay was only starting to be accepted, just added to Freddie Mercury's allure. With expert understanding, Mark Blake traces Mercury's life from his childhood in Zanzibar and India to his untimely death, and charts his astonishing achievements including in Queen's world-conquering performance at Live Aid in 1985. In the year that marks what would have been his seventieth birthday, Freddie Mercury: A Life

Read Free Mercury And Me

celebrates a remarkable life, lived to the fullest. Featuring revealing interviews with fellow musicians, producers and collaborators, and a detailed discography and timeline, this is a memorable tribute to a unique recording artist and an irreplaceable performer who rocked the world.
