"From craftsmen, artisans, archaeologists, anthropologists, and outdoorsmen come skills passed down through the centuries: fire making, camp cooking, basket weaving, pottery making, animal tracking. Now anyone can make glue from the yucca plant or make a juniper-bark berry basket"--Jacket.

Originally published in 1933, this book examines the material culture of various 'primitive' peoples, not only as evidence of migration but also as a window onto that culture's beliefs and customs. Sayce, using a variety of examples from all over the world, details the way in which objects can accrue different meanings through their lifetimes. This book will be of value to anthropologists, folklorists, and anyone with an interest in the evolution of material culture.

"From craftsmen, artisans, archaeologists, anthropologists, and outdoorsmen come skills passed down through the centuries: fire making, camp cooking, basket weaving, pottery making, animal tracking. Now anyone can make glue from the yucca plant or make a juniper-bark berry basket" --dust jacket.

A handbook for outdoorsmen who want to learn from Native American traditions.

EVERYTHING THERE IS TO KNOW ABOUT SURVIVING IN THE WILD " During my first years of learning survival I took a course in survival and primitive earth skills taught by John and Geri McPherson. I was excited by their unbelievable passion and their intrinsic understanding of survival. Their teachings took me from understanding basic skills to a full-blown love for the ancient technologies that humans developed to survive. John and Geri are the real deal. They don ' t just teach this stuff, they live it. I loved the experience with them so much I came back a second time a few years later. Now that I have traveled the world as Survivorman—experiencing and filming survival in every ecosystem there is—I can sit back and watch my shows and see John and Geri ' s teachings peek through in every situation. I have been able to understand survival because of John and Geri, and can highly recommend this book. " --Les Stroud, AKA Survivorman Packed with in-depth instruction and photos, Ultimate Guide to Wilderness Living teaches you the skills need to survive and live in the wild using only those things found in the woods. Learn how to: •Ignite a fire with a two-stick hand drill •Erect temporary and semi-permanent

A field guide to primitive living skills

An essential guide to everything you need to stay sheltered, fed, healthy, and safe in the backcountry Organized around the six essentials of survival (shelter, water, food, fire, comfort and health, and navigation), Wilderness Survival Handbook covers 100 skills and techniques, including preserving fire, building pit shelters, toolmaking, stoneboiling cookery, and trapping and hunting animals with handmade tools and weapons. By mastering these skills, you will be able to survive with few tools or provisions in any wilderness setting--forest, plain, desert, or tundra--in nearly any part of the world.

Filled with valuable information for hobbyists, survival enthusiasts, family campers - and everyone who enjoys outdoor life, Mountainman Crafts and Skills is the essential illustrated guide to wilderness living and survival. How to make your own clothing, shelter, and equipment are all covered in step-by-step detail—through illustrations by the author himself. Learn how to make and use hunting tools and utensils, wild game traps, mountainman clothing, powder flasks and horns, tents, deer-horn jewelry, and much more. Wilderness survival skills are also covered, with instruction geared at both novice and expert. Learn how to trap wild game, tan hides, shoot with black powder, make a fire, and cook a hearty meal with only the barest of essentials.
